COMMUNITY CONNECTIONS

Welcome Community Partners & 23-24 School Year!

Community organizations make a significant impact on facilitating the progress of adult learners throughout their educational journeys. **Community Connections** serves as a unifying platform, bringing together essential stakeholders who are committed to actively facilitating referrals for both clients and students. Each month we engage in meetings, expand our knowledge base, and encourage connection. Our network aims to foster a close-knit coalition of community organizations and adult education programs in order to create a strong safety-net for all of our members.

EVERY 2ND THURSDAY | 1PM - 2PM

Join Us on Zoom!
